Amendments to the Mental Health Act in 2007 brought about significant changes to the roles of the mental health professionals and affected the way they care for and treat their patients.

Our one day course is approved by The Midlands and East of England Mental Health Act Approval Panel and therefore has recognition in all regions within England. It is presented by a team of experts who will update your knowledge and help you to work your way through the legal complexities. You will have an opportunity to discuss the practicalities, ethics and potential clinical dilemmas of using the legislation. The course not only provides the compulsory training, but it will equip you with essential up to date knowledge to help you implement the legislation with more confidence.

### This course will enable you to:

- Apply to renew your approval as an Approved Clinician at your local approvals office
- Understand current developments in mental health legislation and how to apply this practical knowledge in your clinical work
