Asperger Syndrome in Adults Training Courses 2016

Designed and delivered by leading experts to help you develop your local services to meet the care needs of adults who have Asperger Syndrome.

Course 1: The Psychiatry of Asperger Syndrome in Adults
Course 2: The Assessment and Diagnosis of Asperger Syndrome in Adults
Course 3: The Psychiatric Management of Asperger Syndrome in Adults

The Department of Health's (DH) National Autism Strategy (2010, England and Wales) highlighted the nation-wide deficit of professional specialist care services for adults with Asperger Syndrome - these three courses have been designed and updated in response. They incorporate the most up to date training resources specifically designed by our expert trainers for the up-skilling of psychiatrists in the assessment and diagnosis of Asperger Syndrome in Adults.

Our expert trainers include:

Dr Tom Berney: Retired Consultant in Developmental Psychiatry, Clinical Coordinator for the Oxford Brain Bank for Autism

Dr Helen Pearce: Consultant Psychiatrist, Tees, Esk and Wear Valley NHS Foundation Trust

1. The Psychiatry of Asperger Syndrome in Adults *Thursday 19th May 2016, Leeds*

A one day course designed for general adult psychiatrists who have little experience in the field of ASD and Asperger Syndrome and it covers:

- What ASD looks like
- What kind of disorder is it?
- Why is it important?
- Case studies - living with Asperger Syndrome
- Comorbidity

2. The Diagnosis of Asperger Syndrome in Adults *Thursday 30th June 2016, Leeds*

A one day course designed to enable psychiatrists to diagnose. It also demonstrates how you can effectively use the Royal College of Psychiatrists' Diagnostic Guide (downloadable free of charge from their website) and it covers:

- Overview of Asperger Syndrome
- The format of a diagnostic interview
- Practice interviews
- Skills practice
- Making clinical decisions and the best use of diagnosis

3. The Psychiatric Management of Asperger Syndrome in Adults *Wednesday 5th October 2016, Leeds*

A one day comprehensive course designed to help you manage the 'straightforward' cases which you and your teams may come across in your day to day adult mental health/forensic practice. It covers:

- The implications of diagnosis
- The range of resources you can draw upon
- The treatment of ASD and its comorbid disorder
- Multi-agency working and resources
- Legal issues relating to mental capacity and offending
- National strategies and care pathways
