

CPD for Psychiatrists in Autumn/Winter 2012

Welcome to the 5th edition of our eNews. Please find below details of all our forthcoming courses and training over the autumn/winter period. **Remember that delegates booking their first event with ETN receive a 10% discount off the advertised course fees.**

September

Root Cause Analysis (RCA) Investigations within Mental Health Services

Tuesday 25th September
Birmingham

This one day workshop will provide the necessary knowledge, skills and understanding of the principle and practices of RCA and address the wider patient safety agenda which reinforces the benefit of an open organisational culture and helping adopt a vigilant approach towards your practices. The workshop will be active, involve group work and feature scenarios based on real-life incidents. This course is delivered by a former Medical Director (Dr David Newby) and an experienced NPSA Trainer (Ms Kate Beaumont).

Topics covered: • Understanding human error – why we all make mistakes • Patient safety principles applied to mental healthcare • RCA as a structured methodology for incident investigation • Tools to support RCA investigation
